Ann Arbor, Mich. 48106*

**ANNUAL  
INDEX**

# PUBLIC WORKS INDEX

January-December 1966 • Volume 97

## HIGHWAYS AND STREETS

### Bituminous Pavements

Sand Seals for Asphalt Surface	May.—121
Rejuvenation of Asphalt Paving Blocks	Jun.—96
Placing and Compacting Thick Lifts of Asphaltic Concrete	Jun.—112
"Black Base" Rebuilds a Highway Economically	Jul.—99
An Old Technique Controls Reflex Cracking	Sep.—116
Rubber Stretches Highway Life	Nov.—74
Reparing Process Yields Unexpected Dividends	Dec.—74

### Bridges, Culverts and Tunnels

Disaster Experience a Costly But Effective Teacher	Jan.—71
Computer Aids in Rehabilitation of World's Widest Bridge	Feb.—70
The Bridge to Higher Education	Feb.—97
Buffalo Skyway Bridge Gets New Surface	Mar.—124
Prefab Bridge Minimizes Down Time	Apr.—111
Three-Step Bridge Deck Surfacing	Jun.—106
We Treasure Our Covered Bridges	Jul.—74
Innovations in Suspension Bridge Construction	Jul.—116
Low-Cost Permanent Bridges for County Roads	Aug.—86
What You Should Know About Tunneling Techniques	Aug.—105
Traffic Control System Makes Reverse Tunnel Practicable	Sep.—102
Bridge Design Competition	Nov.—106

### Concrete Pavements

Concrete Patching by Full-Depth Slab Replacement	Aug.—113
The Search for Ideal Pavement Joint Sealants	Sep.—134
Restoration of Joint and Spall Failures	Nov.—82

### Construction Methods

Addition of Calcium Chloride Increases Strength of Soil-Cement Base	Mar.—106
Prefab Bridge Minimizes Down Time	Apr.—111
Formulating a Practical Maintenance Policy	Apr.—118
"Permanent-Temporary" Sidewalk Solves Two Problems	May—92
Rejuvenation of Asphalt Paving Blocks	Jun.—96
Placing and Compacting Thick Lifts of Asphaltic Concrete	Jun.—112
Municipal Paving Crews Have Cut Costs	Jun.—122
Seattle's Leaning Wall	Jul.—76
"Black Base" Rebuilds a Highway Economically	Jul.—99
What You Should Know About Tunneling Techniques	Aug.—105
Concrete Patching by Full-Depth Slab Replacement	Aug.—113
Deep Lift Surfacing Proves Advantageous	Oct.—99
Out of the Mud at Lower Costs	Oct.—128

### Design

Intersection Design in Residential Areas	Mar.—82
Rest Area Design Gains From Experience	Mar.—91
Don't Forget Future Maintenance	May—108
What's Wrong With the Best Highways in the World?	May—127
Feed-Back of Maintenance Findings	Oct.—112
Rubber Stretches Highway Life	Nov.—74
Railroad Crossing Designed with Maintenance in Mind	Nov.—88

### Drainage

Augmented French Drains Beautify Back Yards	Jun.—94
Too Good to Discard—30-year-old Steel Culverts Begin Second Hitch	Jun.—128
Erosion Control on a Meandering Channel	Aug.—116

### Equipment

Why the Skid Test Cart was Developed	Jan.—91
Careful Planning Develops an Economical Central Service Facility	Feb.—106
Township Boosts Grading Work 50%	Mar.—101
We Keep the Mowers Moving Lest the Grass Trap Them	Mar.—115
District Strippers Compensate for Short Marking Season	Mar.—117
Highway Lane Striper Uses "Airless" Paint Spray	Apr.—87
Special Distributor Gets Job Started Fast	Apr.—104
When All Else Fails—Mow 'Em Down	Apr.—114
Oklahoma City Benefits from Centralized Equipment Maintenance	Apr.—142
Sweeper Cuts Snow from Catch Basin Inlets	Aug.—85
Profitable Equipment for Public Works	Oct.—80
Nondestructive Testing of Structural Members	Nov.—62
Municipal Garage is Designed for Efficiency	Nov.—71
Proportioner Spray Rig Aids Vegetation Control Program	Nov.—87
Improved Streets Reduce Maintenance, Enhance Public Relations	Nov.—98

### Finance, Legal and Planning

Organizing Public Works for an "Instant City"	Jan.—58
They Call It "Mud Money"	Feb.—92
Rapid Urbanization Changes County Functions	Feb.—95
New Federal Aid for Public Works	May—88
Court Ruling Leads to Sign Inventory	May—123
What's Wrong With the Best Highways in the World?	May—127
New Federal Aid for Public Works	Jun.—76
Guard Rail Painting or Galvanizing—A Cost Analysis	Jul.—88
Public Relations Check List for Resident Highway Engineers	Aug.—137
So You Think Your Highway Problems Are New!	Sep.—156
Dollars and Ambition Are Not Enough—It Takes Engineers to Build Highways	Sep.—169
Feed-Back of Maintenance Findings	Oct.—112
Highway Department Management Team Produces Results	Oct.—146
Sharing Common Rights-of-Way	Dec.—84
Operations Review—A Stitch in Time	Dec.—87

### Materials

Addition of Calcium Chloride Increases Strength of Soil-Cement Base	Mar.—106
Using a Performance Specification for Traffic Paint	Mar.—109
Improving Seal Coats with Rubber Additives	Apr.—95
New Base for an Old Road	Jun.—86
New Patching Material Corrects Pavement Failures	Jul.—105
Guidelines for the Storage or Deicing Chemicals	Aug.—82
Lime Stabilization May Offset Aggregate Scarcity	Sep.—100
The Search for Ideal Pavement Joint Sealants	Sep.—134
Nondestructive Testing of Structural Members	Nov.—62
Rubber Stretches Highway Life	Nov.—74
Pavement Patch Ready for Traffic in One Hour	Nov.—116

### Maintenance Plans and Programs

Skid Testing on the New York Thruway	Jan.—89
Formulating a Practical Maintenance Policy	Apr.—118
Oklahoma City Benefits from Centralized Equipment Maintenance	Apr.—142
Signs, Like Old Soldiers, Tend to Fade Away	May—111
Three-Step Bridge Deck Surfacing	Jun.—106
Guard Rail Painting or Galvanizing—A Cost Analysis	Jul.—88
Concrete Patching by Full-Depth Slab Replacement	Aug.—113

### Parking

Parking Fee System Speeds Collections, Tightens Controls	Mar.—132
Underground Garage Design for the Houston Civic Center	May—125
Planning Parking and Movement for an Airport of Tomorrow	Jul.—109
What's It Like Without Parking Meters?	Aug.—168

### Safety

Traffic Safety Must Be Everybody's Business	Jan.—80
Highly Visible Signs Protect Maintenance Crews	Jan.—104
Determining and Marking No-Passing Zones	Feb.—76
Intersection Design in Residential Areas	Mar.—82
Rest Area Design Gains From Experience	Mar.—91
How to Determine No-Passing Zones	Apr.—120
"Permanent-Temporary" Sidewalk Solves Two Problems	May—92
What's Wrong With the Best Highways in the World?	May—127
Safety at School Crossings: Comprehensive Program Gets Positive Results	Jun.—81
Abolishing the Rear-End Collision	Jul.—154
Grooved Runways Overcome Skidding	Oct.—82
The Negative Slope of Progress	Oct.—107
Moving Traffic Through Pavement Resurfacing Operations	Nov.—79
Shopping Center and Steep Grades Complicate Busy Intersection	Nov.—95

### Snow and Ice Control

Chemicals, Communications and Complement Make for Winter Success	Jan.—60
Six Acres of Ice	Jan.—78
Snowbreak Program Aids Winter Maintenance	Feb.—122
Chemicals Stored in Silos	Apr.—134
Guidelines for the Storage of Deicing Chemicals	Aug.—82
Sweeper Cuts Snow from Catch Basin Inlets	Aug.—85
Haul Savings Justify Investment in Snow Melting Plant	Aug.—96
Logistics of Virginia's Winter Campaigns	Aug.—99
Minimum Snowfighting Force Requires Maximum Planning	Sep.—114
Insulation Protects Ice-Melting System	Dec.—70

### Stabilized Surface and Base

Addition of Calcium Chloride Increases Strength of Soil-Cement Base	Mar.—106
New Base for an Old Road	Jun.—86
Lime Stabilization May Offset Aggregate Scarcity	Sep.—100
Deep Lift Surfacing Proves Advantageous	Oct.—99
Barren Areas Treated for Dust Control	Oct.—114
Out of the Mud at Lower Costs	Oct.—128
Improved Streets Reduce Maintenance, Enhance Public Relations	Nov.—98

## Street Cleaning

Airfield-Type Sweeper is a Natural for California Freeways	Jan.—93
Leaf Collection Made Easy and Economical	Mar.—94
Clean Sweep in South Bend	Jul.—86
Sweeper Cuts Snow from Catch Basin Inlets	Aug.—85
Vermonters Document Street Sweeping Costs	Sep.—146

## Street and Area Lighting

Single-Trench Installation of Utilities	Feb.—142
Urban Renewal Spurs Lighting Improvements	Apr.—101
Twice the Light for the Same Cost	Jul.—100
Some Thoughts About Residential Street Lighting	Oct.—118

## Surface Maintenance

Skid Testing on the New York Thruway	Jan.—89
Why the Skid Test Cart was Developed	Jan.—91
Township Boosts Grading Work 50%	Mar.—101
Buffalo Skyway Bridge Gets New Surface	Mar.—124
Improving Seal Coats with Rubber Additives	Apr.—95
Special Distributor Gets Job Started Fast	Apr.—104
Formulating a Practical Maintenance Policy	Apr.—118
Don't Forget Future Maintenance	May—108
Sand Seals for Asphalt Surfaces	May—121
Rejuvenation of Asphalt Paving Blocks	Jun.—96
Sand Seals Cost More But Save County Highway Funds	Jul.—96
New Patching Material Corrects Pavement Failures	Jul.—105
An Old Technique Controls Reflex Cracking	Sep.—116
Public Relations and the Maintenance Engineer	Sep.—131
Restoration of Joint and Spall Failures	Nov.—82
Railroad Crossing Designed with Maintenance in Mind	Nov.—88
Pavement Patch Ready for Traffic in One Hour	Nov.—116
Reparing Process Yields Unexpected Dividends	Dec.—74

## Traffic Engineering

Determining and Marking No-Passing Zones	Feb.—76
How to Determine No-Passing Zones	Apr.—120
Parking Signs Are Our Problem	Aug.—101
Traffic Control System Makes Reverse Tunnel Practicable	Sep.—102
Lessons Taught by Transportation Emergency	Oct.—176
Shopping Center and Steep Grades Complicate Busy Intersection	Nov.—95
One-Way Street System Required Careful Planning	Dec.—59
A Policy and Standards for Entrances to State Highways	Dec.—68
Telemetering Speeds Traffic Counts	Dec.—82

## Traffic Operations

Temporary Pavement Markings: Quickly Applied, Easily Removed	Jan.—110
Determining and Marking No-Passing Zones	Feb.—76
Using a Performance Specification for Traffic Paint	Mar.—109
District Strippers Compensate for Short Marking Season	Mar.—117
Highway Lane Striper Uses "Airless" Paint Spray	Apr.—87
How to Determine No-Passing Zones	Apr.—120
Signs, Like Old Soldiers, Tend to Fade Away	May—111
Court Ruling Leads to Sign Inventory	May—123
Safety at School Crossings: Comprehensive Program Gets Positive Results	Jun.—81
Show Me the Way to Go Home	Jun.—95
Cleanliness is Next to Effectiveness	Jun.—109
Trailblazers Guide Sports Fans	Jul.—95
Parking Signs Are Our Problem	Aug.—101
Traffic Control System Makes Reverse Tunnel Practicable	Sep.—102
Portland's Seagulls Guide Tourists	Sep.—122
Right Turn on Red—With Caution!	Oct.—100
Nation's Biggest Town Requires 500 Signs per Week	Oct.—151
Moving Traffic Through Pavement Resurfacing Operations	Nov.—79
Cold Markings on a Warm Surface	Dec.—98

## Turf and Roadside Maintenance

Methods Borrowed from Agriculture Aid Turnpike Maintenance	Feb.—84
Where Will Our Highway Plantings Come From?	Mar.—88
Guidelines for a Herbicide Program	Mar.—104
We Keep the Mowers Moving Lest the Grass Trap Them	Mar.—115
Roadside Soil Fertility	Apr.—90
When All Else Fails—Mow 'Em Down	Apr.—114
Don't Forget Future Maintenance	May—108
Highway Scenic Beauty Doesn't Just Happen	Sep.—124
Barren Areas Treated for Dust Control	Oct.—114
Proportioner Spray Rig Aids Vegetation Control Program	Nov.—87

## Surveying Methods

Electronics Replace Chaining in Death Valley Survey	Jan.—117
Highway Surveyors Shoot Points with a "Gun"	Feb.—114

## REFUSE COLLECTION AND DISPOSAL

### Collection Methods

County Refuse Collection Data	Feb.—60
Radio Control of Refuse Trucks	Feb.—82
Refuse Collection and Refuse Characteristics	Mar.—96
Collection and Disposal of Oversized Burnable Wastes	Apr.—106
Cleaner Refuse Trucks Mean Fewer Complaints, Better Morale	Jun.—148B

### Incineration

Saline Water Conversion at No Cost for Fuel	Jan.—62
European Developments in Refuse Incineration	May—113
Trends and Practices in Municipal Incinerator Design	Jun.—84
Control of Air Pollution and Waste Heat Recovery from Incineration	Jun.—100
Incineration by Contract is Our Answer	Aug.—92
Tourist Attraction Preserved by Incinerator Design	Aug.—140
CPM Assists Construction of Automated Incinerator	Sep.—106
Prototype Log Incinerator Operates in Baltimore Park	Nov.—72
Bucket and Grapple Combination Add to Incinerator Efficiency	Nov.—123

### Sanitary Fill

Sanitary Landfill Behavior in an Aerobic Environment	Jan.—67
Operation "Big Squeeze" Takes on Refuse Disposal	Jan.—87
Gravel Pit to Landfill to Park with Rolling Hills	Feb.—105
Collection and Disposal of Oversized Burnable Wastes	Apr.—106
Texasans Choose Sanitary Landfill Over Burning Dump	Jul.—92
Demonstration Program on Solid Wastes Landfill	Sep.—96

### Other Disposal Methods

Grinding—An Aid in Refuse Disposal	May—156
The Economics of Composting Municipal Refuse	Sep.—127
Compost Plant Built for St. Petersburg	Oct.—152

### Wastes Management

Research Study for Waste Management	Jan.—40
Elements of a Refuse Disposal Ordinance	Feb.—151
Refuse Collection and Refuse Characteristics	Mar.—96
Collection and Disposal of Oversized Burnable Wastes	Apr.—106
New Federal Aid for Public Works	Jun.—76
Cleaner Refuse Trucks Mean Fewer Complaints, Better Morale	Jun.—148B
Michigan Enacts Solid Waste Disposal Legislation	Nov.—84
Junkyards Are Necessary	Dec.—72
Cooperation is Key to Solid Waste Management	Dec.—130

## SEWERAGE AND SEWAGE TREATMENT

### Finance, Legal and Planning

Cities Provide Area-Wide Sewerage by Joint Agreement	Jan.—64
Texas Finds a Key to Operator Training	Jan.—94
Joint Sewerage Project Saves Money	Feb.—79
Photographic Sewer Inspections Required	Mar.—93
Abate Pollution or Else!	Mar.—102
Sewerage Requirements Projected from City Planning Data	Apr.—98
County Sewerage System Features Unique Construction	Apr.—113
Low Flow Augmentation to Reduce Water Pollution	Apr.—152
New Federal Aid for Public Works	May—88
New Federal Aid for Public Works	Jun.—76
Solving Sewerage Problems for a Growing Township	Jul.—102
Pasadena's Cross Connection Control Program	Aug.—109
Control of Pollution from Combined Sewer Systems	Aug.—112
Guidelines for Stream Quality Standards	Sep.—133
Metro Seattle's Renton Plant Features Many Innovations	Oct.—92
Paper Industry and Town to Build a Joint Treatment Plant	Oct.—166
Chicago Metro Sanitary District Makes No Little Plans	Nov.—66
New Sewers Will Permit Safe, Rapid, Municipal Expansion	Nov.—77
How Muskegon Heights Became Revitalized	Dec.—88

### Sewer Systems—Construction

Dual Sewer Line Serves City	Jan.—112
Mechanical Mole for Sewer Tunneling	Feb.—126
Photographic Sewer Inspections Required	Mar.—93
High Water Table Complicates Sewer Construction	Jun.—132
Deep Tunnels for Flood and Pollution Control	Jul.—68
Pipe Joint Baffles Roots in Five-Year Test	Jul.—130
What You Should Know About Tunneling Techniques	Aug.—105
King Size Clay Pipe Installed	Sep.—86
Sewerage and Water for a Developing Area	Sep.—162
New Sewers Will Permit Safe, Rapid, Municipal Expansion	Nov.—77
Sewer Inspection Photographs Can Resolve Controversies	Dec.—118

### Sewer Systems—Design

Solving a Sewer Overflow Problem	Apr.—92
Sewerage Requirements Projected from City Planning Data	Apr.—98
King Size Clay Pipe Installed	Sep.—86
Chicago Metro Sanitary District Makes No Little Plans	Nov.—66
New Sewers Will Permit Safe, Rapid, Municipal Expansion	Nov.—77
Split Level Design for Sewer Separation	Nov.—97

### Sewer Systems—Maintenance

Control of Cockroaches in Sewers	Jan.—92
TV Inspection of Sewers Improves Repair Program	Feb.—73
Preventive Sewer Maintenance Made Easy	May—148
Maintaining San Francisco's Sewerage System	Sep.—109

### Sewage Pumping

Abate Pollution or Else!	Mar.—102
Solving a Sewer Overflow Problem	Apr.—92
4-MGD Activated Sludge Plant Designed for One-Man Operation	Jul.—97
Metro Seattle's Renton Plant Features Many Innovations	Oct.—92
Plant Expanded to Meet Industrial Waste Load	Dec.—63
Sewage Treatment Plant Design Involves Special Problems	Dec.—79

## Storm Drainage

Augmented French Drains Beautify Back Yards	Jun.—94
Deep Tunnels for Flood and Pollution Control	Jul.—68
Control of Pollution from Combined Sewer Systems	Aug.—112
Chicago Metro Sanitary District Makes No Little Plans	Nov.—66
Split Level Design for Sewer Separation	Nov.—97

## Sewage Treatment—Design

Joint Sewerage Project Saves Money	Feb.—79
Reclamation of Waste Water at Lake Tahoe	Feb.—86
Nitrogen Removal from Waste Effluents	Feb.—90
"Igloo" Technique Covers Trickling Filters	Feb.—135
Burn Away the Odors	Mar.—84
Abate Pollution or Else!	Mar.—102
Water Pollution Control Achievement in Canada	Mar.—134
County Sewerage System Features Unique Construction	Apr.—113
Activated Sludge Plant Features Aeration Flexibility	Jun.—98
4-MGD Activated Sludge Plant Designed for One-Man Operation	Jul.—97
Metro Seattle's Renton Plant Features Many Innovations	Oct.—92
Determining the Future Needs of Highway Rest Areas	Oct.—108
Chicago Metro Sanitary District Makes No Little Plans	Nov.—66
Activated Sludge Plant Replaces Primary-Lagoon System	Nov.—118
Plant Expanded to Meet Industrial Waste Load	Dec.—63
Sewage Treatment Plant Design Involves Special Problems	Dec.—79
How Muskegon Heights Became Revitalized	Dec.—88

## Sewage Treatment—Industrial Waste

Problems of Ground Water Pollution by Brine	Mar.—149
Paper Industry and Town to Build Joint Treatment Plant	Oct.—166
Plant Expanded to Meet Industrial Waste Load	Dec.—63
Sewage Treatment Plant Design Involves Special Problems	Dec.—79

## Sewage Treatment—Operation and Maintenance

Texas Finds a Key to Operator Training	Jan.—94
How Tones Expand Signal Facilities	Apr.—96
4-MGD Activated Sludge Plant Designed for One-Man Operation	Jul.—97
Eliminating a Digester Scum Problem	Jul.—134
Water and Sewerage Operator Training—Neosho Style	Sep.—129
Epoxy Coating Speeds Algae Removal at Waste Treatment Plant	Dec.—52
Disposal of Municipal Greases by Burning	Dec.—110

## Treatment Methods and Research

Reclamation of Waste Water at Lake Tahoe	Feb.—86
Nitrogen Removal from Waste Effluents	Feb.—90
Burn Away the Odors	Mar.—84
The Efficiency of Extended Aeration	Apr.—88
Low Flow Augmentation to Reduce Water Pollution	Apr.—152
Additives for Digestion Systems	May—94
Stream Monitoring in Galveston Bay	May—118
Experimental Models for Sewage Treatment Plants	Jun.—110
Characteristics of Wastes from Apartment Buildings	Aug.—88
Hog Waste Treatment Lagoons	Oct.—80
Determining the Future Needs of Highway Rest Areas	Oct.—108
Vest Pocket Kit Tests Water Contamination	Dec.—126

## Costs

Cities Provide Area-Wide Sewerage by Joint Agreement	Jan.—64
Reclamation of Waste Water at Lake Tahoe	Feb.—86
Metro Seattle's Renton Plant Features Many Innovations	Oct.—92

Month  
and page

## Instrumentation

Cities Provide Area-Wide Sewerage by Joint Agreement	Jan.—64
Stream Monitoring in Galveston Bay	May—118
Metro Seattle's Renton Plant Features Many Innovations	Oct.—92
Chicago Metro Sanitary District Makes No Little Plans	Nov.—66

Month  
and page

Month  
and page

## WATER SUPPLY AND PURIFICATION

### Finance, Legal and Planning

Developing Adequate Rural Water Systems	Jan.—76
Meter Replacement Program Increases Revenue 125 Percent	Feb.—81
Walkie-Talkie Meter Reading	Feb.—150
Controlling Contractor's Use of Water from Fire Hydrants	Mar.—90
New Federal Aid for Public Works	May—88
New Federal Aid for Public Works	Jun.—76
Pasadena's Cross Connection Control Program	Aug.—109
Water Treatment Brings New Era to a City	Sep.—136
A Treatment Plant for the Rural Water System	Oct.—102
Special Files Add Efficiency to Headquarters Building	Oct.—125
U. S. Treatment Experts Set Up Saigon Water Plant	Nov.—137
How Muskegon Heights Became Revitalized	Dec.—88

### Water Pumping

Foresighted Water Improvements Pay Off	Apr.—93
Unique Salt Water Supply System Serves Aquarium	Aug.—94
Booster Pump Meets Unusual Requirements	Aug.—156
Standby Electric Set Insures Water Supply	Sep.—170
Booster Station Controls Simplify Operation	Dec.—56

### Reservoirs and Tanks

Reservoir Lining Challenges Contractor's Ingenuity	Feb.—74
New Reservoir Painted With School Colors	Mar.—114
Project Turns a Sea Inlet Into a Water Reservoir	Apr.—60
Aeration System Keeps Water Tasting Fresh	Apr.—84
Foresighted Water Improvements Pay Off	Apr.—93
How We Built a Reservoir	Apr.—102
High Strength Steels Reduce Storage Costs	Apr.—162
Aeration of Reservoir Improves Water Quality	Jul.—138

### Supply Lines and Distribution

Developing Adequate Rural Water Systems	Jan.—76
Meter Replacement Program Increases Revenue 125 Percent	Feb.—81
Municipal Communications—What is Required?	Feb.—99
Vital Intake Main Cleaned in a Hurry	Jul.—98
Pasadena's Cross Connection Control Program	Aug.—109
Meter-Seal Test Exposes Pilferage	Aug.—166
Sewerage and Water for a Developing Area	Sep.—162
Five-Mile Steel Water Main Begins Duty	Dec.—120

### Water Treatment—Design and Operation

Philadelphia's Third New Water Plant	Mar.—78
Portable Screen Aids Filter Reconditioning	Apr.—117
The Operation of Water Treatment Plants—Part 1	May—96
Plastic Ball Valves Control Filter Plant Operation	May—158
The Operation of Water Treatment Plants—Part 2	Jun.—88

The Operation of Water Treatment Plants—Part 3	Jul.—80
Gas Fired Recarbonation System Saves Money	Jul.—90
Iron Removal Plant Uses Continuous Permanganate Feed	Aug.—107
Softening Plant Features Advanced Instrumentation	Sep.—112
Experiences With Thin-Layer Dual Media Filtration	Sep.—120
Water and Sewerage Operator Training—Neosho Style	Sep.—129
Water Treatment Brings New Era to a City	Sep.—136
A Treatment Plant for the Rural Water System	Oct.—102
How Muskegon Heights Became Revitalized	Dec.—88

### Instrumentation and Process Control

Philadelphia's Third New Water Plant	Mar.—78
Agitators for Liquid Chemical Feed Systems	Mar.—144
Foresighted Water Improvements Pay Off	Apr.—93
How Tones Expand Signal Facilities	Apr.—96
Softening Plant Features Advanced Instrumentation	Sep.—112
In-Line Turbidity Meter Spots Operation Defects	Oct.—127
Automated Water System in an Antiquated Setting	Nov.—81
Booster Station Controls Simplify Operation	Dec.—56

### Treatment Methods and Research

Self-Operated Water Plant	Jan.—118
Ultraviolet Disinfection of Water	Feb.—103
Progress in Desalination	Feb.—150
Aeration System Keeps Water Tasting Fresh	Apr.—84
Iron Removal Plant Uses Continuous Permanganate Feed	Aug.—107
Nitrate in Water Supplies	Sep.—88
Experiences With Thin-Layer Dual Media Filtration	Sep.—120
Diatomite Filters for Iron Removal on Potable Waters	Nov.—90

### Water Supply and Sources

Saline Water Conversion at No Cost for Fuel	Jan.—62
Runoff From an Asphalt-Lined Catchment Area	Mar.—68
Are We Really Using Groundwater?	Mar.—86
Problems of Ground Water Pollution by Brine	Mar.—149
Project Turns a Seal Inlet Into a Water Reservoir	Apr.—60
Recharge Well Has Fiberglass-Reinforced Casing	Jun.—142
Unique Salt Water Supply System Serves Aquarium	Aug.—94
Electric Barrier Will Control Lamprey Invasion	Oct.—123
Big Valves Help New York Tap the Hudson	Dec.—76

## ADMINISTRATION AND PLANNING

Organizing Public Works for an "Instant City"	Jan.—58
Municipal Communications—What is Required?	Feb.—99
Cooperative Purchasing Saves Money	Apr.—116
Public Relations Check List for Resident Highway Engineers	Aug.—137
The Public Works Purchaser: An Enlightened Individual	Sep.—111
Public Relations and the Maintenance Engineer	Sep.—131
Dollars and Ambition Are Not Enough—It Takes Engineers to Build Highways	Sep.—169
Evolution of a Highway Engineers Conference	Oct.—105
Two-Level Sidewalk Increases Downtown Values	Oct.—116
Scheduling Municipal Improvements	Oct.—120
New Concepts in Municipal Information Processing	Dec.—71
Getting Tomorrow's Money Today	Dec.—77

## AIRPORTS

Factors in Planning Heliports	May-72
Planning Parking and Movement for an Airport of Tomorrow	Jul.-109
An Old Technique Controls Reflex Cracking	Sep.-116
Airport Face Lifting at Palm Beach	Sep.-138
Grooved Runways Overcome Skidding	Oct.-82
Barren Areas Treated for Dust Control	Oct.-114
Green Pavement Cuts Troublesome Shadows	Oct.-136

## DAMS AND FLOOD CONTROL

Disaster Experience a Costly But Effective Teacher	Jan.-71
Rapid Urbanization Changes County Functions	Feb.-95
Erosion Control on a Meandering Channel	Aug.-116
Start-Up of California State Water Project	Nov.-124

## MUNICIPAL POWER

Power Outage Effects on Water and Sewerage Facilities	Jan.-85
Single-Trench Installation of Utilities	Feb.-142
New Federal Aid for Public Works	Jun.-76
County Inherits an Electrical Distribution System	Dec.-108

## INSECT AND RODENT CONTROL

Control of Cockroaches in Sewers	Jan.-82
Another War on Cockroaches	Jan.-83
Three-Phase Attack on Mosquitoes	Aug.-90

## PUBLIC HEALTH

Control of Cockroaches in Sewers	Jan.-82
Another War on Cockroaches	Jan.-83
Three-Phase Attack on Mosquitoes	Aug.-90
Pasadena's Cross Connection Control Program	Aug.-109
Nitrate in Water Supplies	Sep.-88
Vehicle Air Pollution Standards	Dec.-96

## RECREATIONAL FACILITIES

Gravel Pit to Landfill to Park with Rolling Hills	Feb.-105
Dredging Develops Recreational Lake Facilities	Mar.-100
We Treasure Our Covered Bridges	Jul.-74

## GENERAL AND MISCELLANEOUS

Six Acres of Ice	Jan.-78
Pre-engineered Components Make Town Building Expandable	Feb.-94
Deficit Ferry Service Booms Islands' Economy	Mar.-111
How to Make a Speech	Mar.-120
Engineers Anonymous	Aug.-118
Repairs to River Navigation Structures	Sep.-118
The Negative Slope of Progress	Oct.-107
Projecting Local Area Population	Nov.-84
"Changed Conditions"	Nov.-93

## CIVIL DEFENSE AND EMERGENCIES

Disaster Experience a Costly But Effective Teacher	Jan.-71
Power Outage Effects on Water and Sewerage Facilities	Jan.-85
Emergency or Standby Power Facilities	Jun.-68

## URBAN TRANSPORTATION

Lessons Taught by Transportation Emergency	Oct.-176
Sharing Common Rights-of-Way	Dec.-84

## LEGAL ASPECTS OF PUBLIC WORKS

Recovery by City For Defective Sewer Pipe	Jan.-54
Operation of Sewage Treatment Plant Held Taking of Property	Jan.-54
Duty to Remove Ice From Public Sidewalk	Feb.-52
Special Assessment Against Railroad Right-of-Way	Feb.-52
Compulsory Fee for Garbage Collection Voided	Feb.-52
Reimbursement for Relocation of Utilities Prohibiting All Junkyards Held Invalid	Mar.-64
Sale of Municipal Utilities	Mar.-64
Assessments Levied For City Hall Construction	Mar.-64
Low Paving Bid Rejected by City	Mar.-64
Private Sewer System Within City Limits	Apr.-74
Inattention to Known Sidewalk Defect	Apr.-74
Municipality Restricts Access To Private Parking Lot	Apr.-74
Bid Specifications Drawn To Favor One Manufacturer	May-134
Relocation of Utility Lines Under Highway	May-134
Sewer Service Charge For Private Sewers	May-136
Public Dump Held Not A Nuisance	Jun.-54
Salary of City Civil Engineer Tied to State Scale	Jun.-54
Parking Ordinance Declared Unconstitutional	Jun.-56
Ordinance Passed Outside City Limits	Jul.-60
Authority of State In Sanitation Matters	Jul.-60
Gas Station Signs Held to Affect Traffic Safety	Jul.-60
Sewer Rates For Trailer Park	Jul.-60
City's Duty To Maintain Crosswalk	Aug.-66
Doctrine of Governmental Immunity Upheld	Aug.-66
Failure to Inspect Walk-In Sewer System	Aug.-66
Yield-Right-of-Way Sign Totally Obscured	Aug.-66
Level Sidewalks Not Required	Sep.-190
Road Contractor's Duty To Traveling Public	Sep.-190
Municipal Liability For Water Line Break	Sep.-190
Civil Engineer Wins Contract Dispute	Sep.-191
Sewer Rental Charge For Apartment Units	Oct.-64
Destruction of Dilapidated Buildings	Oct.-64
City Held Liable For Collapse of Dam	Nov.-60
Test Hole Information Inaccurately Placed on Plans	Nov.-60
Water Service to Consumers Outside Corporate Limits	Nov.-60
Dumping Ground Required For Demolition Debris	Dec.-48
Sledding Street Opened Without Snow and Ice Removal	Dec.-48
Notice of Accident Required Before Suit	Dec.-48
Failure to Erect Parking Curb Challenged	Dec.-48

## ABOUT OUR COVER

Morris L. Shadburn	Jan.-1 & 18
Walter F. Winters	Feb.-1 & 18
John A. Logan	Mar.-1 & 18
Guy Keelcey	Apr.-1 & 18
Herbert O. Hartung	May-1 & 18
Fred Glendening	Jun.-1 & 18
Edward R. Rieker	Jul.-1 & 18
Sam Granata, Jr.	Aug.-1 & 18
Hugo G. Erickson	Sep.-1 & 18
Vinton W. Bacon	Oct.-1 & 18
Charles W. Bengie	Nov.-1 & 18
James W. McFarland	Dec.-1 & 18
